

IN THE SPECIFICATION:

Please replace the paragraph at page 4, lines 28-34, of the specification with the following paragraph:

--In the present experiment, to experiment the embodiment concretely, acetone is used as the solvent used for weighing and mixing strontium carbonate (SrCO_3), silica (SiO_2), and europium oxide (Eu_2O_3), and then ball milling or agate mortar is used as a mixer of the solvent and ~~the~~ the components of strontium carbonate (SrCO_3), silica (SiO_2), and europium oxide (Eu_2O_3).--
